LEIGHA MICELI

SENIOR PRODUCT DESIGNER

www.lmva.us

PROFESSIONAL SUMMARY

Senior Product Designer with 9 years of experience driving UX innovation and product strategy. Expert in creative problem solving, design thinking, and cross-functional collaboration, leading to significant revenue growth and enhanced user satisfaction. Passionate about mentoring and fostering a collaborative design culture.

EMPLOYMENT HISTORY

APR 2021 - PRESENT

Senior UX Designer, Chatbooks, Remote

- Re-imagined subscription strategies using customer insights, boosting recurring revenue by \$10M annually for 3 years.
- Mentored multiple designers, fostering a culture of collaboration and creativity, resulting in improved project delivery timelines.
- Developed and tested hypotheses through iterative prototyping, effectively communicating customer-centric design vision to partners.

JAN 2022 - MAR 2025

UX Tutor, Career Foundry, Remote

- Mentored aspiring UX designers, offering personalized guidance to navigate real-world challenges and accelerate growth.
- Assessed and provided constructive feedback, leading to measurable improvements in student performance.
- Implemented best practices in UX design education, fostering skill mastery and portfolio development.

MAR 2015 - DEC 2023

Product Designer, Freelance, Remote

- Solved complex UX challenges across industries, collaborating with teams and using motion design to create engaging experiences.
- Improved user satisfaction with design, including micro-interactions, and brought a global perspective from a passion for travel.
- Streamlined processes to boost efficiency, delivering high-impact products that exceeded client expectations.

MAR 2020 - NOV 2020

UX Designer, Reconnect, Remote

- Boosted visibility, accountability, and motivation for individuals on probation through innovative app design.
- Optimized user interfaces across web and mobile apps, resulting in measurable improvements in messaging frequency and task completion rates.
- Analyzed user behavior to identify pain points, implementing data-driven design solutions that significantly enhanced app usability and adoption.
